Adam Prows

Cell: 801-941-1044 email@adamprows.com Portfolio: www.adamprows.com

I have been working in technology for over ten years, and love solving problems, helping people, and learning new things. I'm dependable, patient, and intelligent. I have developed large and small custom websites, designed the UI/UX for web applications, and more using full-stack Test Driven development and Agile team management.

Work Experience

Fox Pest Control Aug '19 – Apr '23
Web Developer II – fox-pest.com
Worked with a small Agile team to create and support websites for internal use including a task tracker that is used by hundreds of employees and a payroll processing application that simplified calculating D2D sales payrolls. Used the PHP Laravel framework, MySQL, Docker, JavaScript, Websockets, CSS, and Python.

Walt USA, LLC Dec '17 – Nov '18
Webmaster & IT Support – waltusa.com
Used HTML, CSS, PHP, and JavaScript to design and build an internal tracking/reporting website for manufacturing. Used Amazon and Shopify to sell products to retail and wholesale customers. Used QuickBooks to manage inventory and product lists. Maintained a local server and network. Did IT support for coworkers. Helped run the outlet store.

ICON Health & Fitness Aug '15 – Nov '17
Front-end web developer – iconfitness.com
Used HTML, SCSS, Thymeleaf, and JavaScript/jQuery to design, build, and maintain international eCommerce websites with a small team.

USU Computer Science Department Dec '14 – Dec '15
Webmaster – cs.usu.edu
Used HTML, CSS, Bootstrap, and PHP to rebuild and redesign a legacy website while moving to a new CMS. Worked with faculty and staff to keep the website up to date.

USU Career Services Aug '11 – May '15
Computer support & Web designer – career-services.usu.edu
Used HTML, CSS, Bootstrap, and PHP to rebuild and redesign a legacy website while moving to a new CMS. Made promotional documents and reports with the Adobe Creative Suite. Maintained a dozen office computers.

Education

Utah State University May 2015
Bachelor of Science – Art & Design Major; Computer Science & Multimedia Minors
Graphic Design, Web Design and Development emphasis

Salt Lake Community College May 2010
Associate of Science – General Education
Multimedia and computer programming emphasis

Programming Languages: PHP, HTML, CSS/SCSS, JavaScript/jQuery, MySQL, NPM, Thymeleaf, Java, C#/asp.net

Leadership and Volunteer Service

- Completed the rank of Eagle Scout in The Boy Scouts of America.
- Served two years in the Arkansas area doing volunteer missionary service; my duties included managing a database to create reports for leaders in the area, public speaking, and helping people reach goals.
- As the Technology Manager for The Heads Advertising Club, I worked with fellow students in other clubs at USU to complete advertising and design projects.
